

I am very dismayed that Sinclair Broadcasting is choosing to use public airwaves to support partisan causes (specifically I refer to their forcing their 62 affiliates to air the anti-Kerry movie. The FCC needs to stand up for what is left of our democracy and in that interest and in the interest of fairness either sanction them for this. Not to do so will reflect on the partisan nature of the FCC itself. We all remember what happened when CBS tried to air a movie unfavorable to Ronald Reagan. This case is worse as it is blatant partisan use of the airwaves and a violation of the trust we put in broadcast networks.
